ANNEX 2

SAVE THE CHILDREN SUPPLIER SUSTAINABILITY POLICY

PART 1 - INTRODUCTION

SAVE THE CHILDREN'S VALUES: Save the Children's vision is a "world in which every child attains the right to survival, protection, development and participation". Our values are creativity, accountability, integrity, collaboration and ambition. These serve as overarching values to which suppliers of goods and services to Save the Children are expected to adhere.

REFERENCE: International Standards, Conventions and Principles such as the UN Declaration on Human Rights and other core Human Rights Treaties, including the UN Convention on the Rights of the Child and the International Labour Standards on Child Labour & Forced Labour (namely 138 and 182) are the foundations on which much of this Policy is based. Therefore, it is Save the Children's expectation that any supplier will adhere to these principles.

INTERPRETATION: The Global Compact¹ ("Compact") is a voluntary corporate citizenship community that sets the universal social and environmental principles, to meet the challenges of globalisation (a key foundation for the Compact is the Guiding Principles on Business and Human Rights). Save the Children encourages all suppliers to participate in the Compact. This policy addresses the issues included in the Compact in the areas of human rights, labour, environment and anti-corruption, and interpretation of this Policy should be undertaken in a manner consistent with the Compact.

PART 2 - SCOPE OF APPLICATION

- The provisions of this Policy set forth Save the Children's expectations for suppliers that are registered with Save the Children, or with whom it does business.
- Save the Children expects that these standards apply to, and will be communicated to, suppliers' employees, parent, subsidiary and / or affiliate entities, subcontractors, and their own suppliers.
- Suppliers will be required to sign a declaration of compliance in all bid submissions and supply contracts.

Save the Children's aim is to guide its suppliers over the long term to meet these standards. Those who will not be able to demonstrate their goodwill, may see their supply relationship called into question.

PART 3 - CONTINUOUS IMPROVEMENT

- The provisions set forth in this Policy provide the minimum standards expected of suppliers.
- In addition, Save the Children expects suppliers to strive to exceed international and industry best practices and to ensure that their own suppliers and subcontractors aim to do the same.
- Save the Children recognises that reaching some of the standards established in this Policy is a dynamic rather than a static process and encourages suppliers to continually improve their operations accordingly.

PART 4 - MANAGEMENT, MONITORING AND EVALUATION

- Suppliers are required, as a minimum, to comply with compulsory standards in this Policy ("must" provisions), and to set clear goals and work-plans to achieve the other standards ("should" provisions).
- This may require active monitoring of its own operations through establishing appropriate management systems to track progress and compliance
