Financial proposal	Financial-Commercial Evaluation	Bid - RFQ	40.00								40.00	Lowest price meeting minimum technical criteria. Points in this segment will be rounded up to 2 (two) decimal places. Explanation: Vendor that has lowest price will get maximum of points. Points for the rest of the vendors will be calculated based on how much more expensive they are from the lowest price (calculation logic). Lowest price/price of the vendor* 40 points. Example: Lowest price of one vendor is \$100,00 who is awarded 40 points. Second lowest price is \$110,00 so he gets (\$100,00/\$110,00 * 40 points= 36,36 points) total of 36,36 points.
